

LOUIS W.
Bray
CONSTRUCTION

To those who may not have previously heard, Jim Flegg has moved on to a new opportunity in the construction of a new facility in Chalk River with WSP. We wish Jim all the best and thank him for 15 great years.

I am happy to announce that our new General Manager is Nick Bray. As the third generation in the family business, Nick began as a yard helper in St Andrews at the age of 14. As he learned some of the ins-and-outs of our equipment and materials, he then moved into working on job-sites from the ages of 16-21 as a summer labourer where he learned more on sewer/water work and bridge work.

Nick studied Civil Engineering with a Minor in Business, graduating from McMaster University in 2011. After his graduation, Nick put his education to use working for McNally Construction for 5 years on various tunneling projects across the GTA.

In 2016, Louis W Bray Construction welcomed Nick back as a Project Manager, where he moved up to become Operations Manager – Sewer & Water in 2019. In 2020, Nick joined the NCHCA Board of Directors, representing Bray Construction industry-wide.

We are proud to announce that effective January 17th, Nick Bray was promoted to the role of General Manager, running the day to day operations of Louis W. Bray Construction.

Nick is married to Leanna and they have two beautiful boys, Lochlan and Callum, (possible 4th generation Bray employees).

Congratulations Nick!

Mike Bray
